

About Us – Mako Mining Corp is a publicly listed gold mining, development and exploration company. The Company operates the high-grade San Albino gold mine in Nueva Segovia, Nicaragua, which ranks as one of the highest-grade open pit gold mines globally and offers district-scale exploration potential. Mako also holds a 100% interest in the Eagle Mountain Project in Guyana, South America. **Mako US Corp (a subsidiary of Mako Mining Corp)** owns the Moss Mine, an open pit gold mine in Arizona and also owns the Mt. Hamilton Mine in Nevada. Mt. Hamilton LLC is currently seeking a qualified person for the position of full-time **Environmental Coordinator**.

About this role – Environmental Coordinator

The Environmental Coordinator will support environmental compliance, monitoring, and stewardship programs. This position ensures that mining operations meet all federal, state, and local environmental regulations, company environmental policies, and best management practices. The Environmental Coordinator will work collaboratively with operations, engineering, and regulatory agencies to implement environmental protection strategies and reporting.

Responsibilities

Compliance & Reporting

- Assist with compliance monitoring and reporting under permits including WPCP, air quality, and maintaining and updating the Plan of Operation under the USFS
- Prepare, organize, and submit required environmental reports to regulatory agencies (e.g., NDEP, EPA, USFS) in a timely and accurate manner
- Track and maintain documentation to support audits, inspections, and compliance evaluations

Environmental Monitoring

- Conduct routine field inspections of soil, groundwater, air emissions, reclamation areas, stormwater controls, and other environmental indicators
- Collect samples and coordinate with third-party labs as required
- Maintain field logs, inspection checklists, and monitoring results

Permitting & Recordkeeping

- Support permit compliance for surface disturbance, water use, waste disposal, and other regulated activities
- Assist in preparation and updates of environmental permits and related materials.
- Maintain environmental files, GIS data, maps, and databases

Training & Awareness

- Deliver environmental training to mine personnel on topics such as spill prevention, waste segregation, wildlife protections, and environmental incident reporting
- Ensure construction activities are carried out in accordance within all permit parameters: maintaining active permits and establishing new ones whenever necessary
- Promote environmental awareness across the workforce

Incident Response

- Respond to environmental incidents (spills, exceedances, complaints) and assist with corrective actions, investigations, documentation, and reporting
- Coordinate with construction and operations and management to ensure timely mitigation

**The above duties and responsibilities are representative of the nature and level of work assigned and are not necessarily all-inclusive.*

Required Qualifications

- Bachelor's degree is preferred, but not necessary, in Environmental Science, Environmental Engineering, Geology, Natural Resources, or a related discipline
- 1–3+ years of environmental compliance or monitoring experience, preferably in mining, construction, or industrial settings
- Knowledge of environmental regulations (e.g., Clean Water Act, Clean Air Act, RCRA, NEPA), and Nevada state requirements
- Familiarity with environmental monitoring techniques and data management
- Ability to work outdoors, in extreme weather conditions, in a mining environment and remote locations
- Strong organizational and written/verbal communication skills
- Valid driver's license and ability to travel to field sites

Preferred Qualifications

- Experience working in open-pit mining or mineral processing environments
- Training or certification in environmental compliance, hazardous materials, stormwater management, or related fields
- Proficiency with GIS/ARC GIS, database management, and environmental reporting tools
- First aid, HAZWOPER, or related safety certifications
